DETAILED ACTION

In the Amendment dated March 24, 2005, claims **15-20** have been canceled, and claims **5 and 6** are amended. Accordingly, claims **1-14** are pending in this application.

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

The title of the invention has been changed as follows:

–SEMICONDUCTOR DEVICE INCLUDING A LOW RESISTANCE WIRING
LAYER--.

Allowable Subject Matter

Claims **1-14** are allowed.

The following is an examiner's statement of reason for allowance:

Claims **1-6** are allowable over the prior art of record because the prior art of record does not teach or render obvious a semiconductor device comprises a low resistance embedded wiring layer in which a plurality of element regions are formed over the low resistance embedded wiring layer, and in combination with all other features as recited in independent claim **1**.

Claims 7-14 are allowable over the prior art of record because the prior art of record does not teach or render obvious a semiconductor device comprises a low resistance first embedded wiring layer and a low resistance second embedded wiring layer, the first embedded wiring layer is supplied with a first potential and the second embedded wiring layer is supplied with a second potential different than the first potential, and in combination with all other features as recited in independent claim 7.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
